### WEBELOS KLONDIKE TREK 2016

All Webelos/AOL Scouts, 4<sup>th</sup> & 5<sup>th</sup> graders, are invited to participate in the Webelos Klondike Trek, 2016. This will be a timed event that will test their skills as a patrol at 7 stations.

<b>Date:</b>	Saturday, January 30, 2016
<b>Registration:</b>	Please register at <a href="http://ppbsa.doubleknot.com/event/1809401">http://ppbsa.doubleknot.com/event/1809401</a> Registration will close on Wednesday, January 20, 2016. Each patrol must be accompanied by at least one (1) BSA registered adult leader plus one other adult. The cost of this event is \$6.00 for each member of the patrol. Adult leaders are NOT REQUIRED TO PAY THIS FEE.
<b>Parking:</b>	Trailside Nature Center, 452 New Providence Rd., Mountainside, NJ 07092
<b>Event Check-in:</b>	“Headquarters” pavilion on the Loop, at your scheduled time
<b>Trek Competition:</b>	10:00 a.m. through 1:00 p.m. Start times on 15 minute intervals. Last start time will be 11:30 a.m.
<b>Awards:</b>	1 <sup>st</sup> , 2 <sup>nd</sup> and 3 <sup>rd</sup> place, for lowest “NET” time. See below for NET time definition. Ribbons presented following event, or may be picked up at February roundtable.

This is a great opportunity for your Webelos to work as a patrol by testing their Scout skills in a timed competition. Patrols should be 4 to 8 Scouts and may be any mix of 4<sup>th</sup> and 5<sup>th</sup> graders. SLEDS, WAGONS, OR SIMPLY BACKPACKS MAY BE USED. The choice is yours. Each patrol is required to be led by two (2) adults, one of whom must be a BSA registered leader. All station tasks required for the competition are defined below.

The stations will supply some of the necessary materials required to perform each skills challenge, with the balance brought along. Scouts and patrols will be required to be equipped as specified below. To be competitive in this event, advance preparation, both to procure materials and practice skills, is a must. This competition assumes the patrols will know what to do once they arrive at each station, with minimal direction from the station hosts.

Start times will be between 10:00 a.m. and 11:30 a.m., on 15 minute intervals. You will be asked for a first choice plus alternate during on-line registration. We will do our best to accommodate your request. The anticipated completion time of the trek is 1.5 hours. All patrols will check in at Event Headquarters, from which they will proceed to the Event Preparedness Station.

The trek is completed as a circuit (fixed sequence from one station to another) around the course. Times will be recorded for check-in and check-out at each station. Patrols will be sent to different stations to start their individual trek. Starting position should not matter, as each patrol will complete the same set of stations, and are only scored for time spent within each station.

## Required Provisions

Because we cannot know how cold or hot it will be the day of the event, or even during the times each patrol will be running the event, it is important that Scouts and leaders “Be Prepared” for all likelihoods throughout the day.

This is a “timed” event, and we are asking that Scouts and patrols bring along some of the items that will be needed to complete their tasks. This is to make things easier on the volunteer Scout units hosting the Webelos trek stations, as well as to help minimize “bottlenecks” due to sharing station resources. This is closer in line with the success model of the Boy Scout Klondike Derby, which is also a timed event accommodating many more Scouts, where patrols bring EVERYTHING they will need.

# **Webelos Klondike Trek Stations**

## **General Note to Station Hosts:**

Thank you once again for volunteering to make this Webelos Klondike Trek a successful and enjoyable event! We hope it lets the Webelos/AOLs experience and enjoy the “patrol method”, that is at the heart of Boy Scouts.

### **General Guidelines:**

1. This year will be a timed event. Low time wins! For all stations except cooking, the clock will be running.
2. Station activities have been chosen such that Webelos will check-in, perform one or more required tasks, have points tallied, be initialed as “complete” by the station host, and leave.
3. Tasks are such that the Webelos patrols can mostly complete the tasks themselves, using a combination of materials brought from home (primarily), and materials provided by the station.
4. Stations should be able to handle multiple patrols at once, without delay to any; check them in, tell them where to complete their task, verify the task(s) are complete, add the points, initial the sheet, send them on their way.
5. The thought is we want to be prepared to handle many Webelos, without bottlenecks, under cold conditions. To do this, we want to properly “size” the station tasks, minimize delays, have tasks be mostly “self sufficient”, and keep the boys moving.
6. A fixed number of points are awarded for the completion of each task, i.e., all or nothing. This is how task completion will be factored into the final score (time) of the day. Final score for each patrol will be Number of Minutes to Complete the Trek + Total Missed Points, i.e., each missed point translates to 1 added minute.

### Required Materials Provided by Patrol:

Boy Scout orienteering compass, with baseplate and moveable bearing ring.

\*"Put Red in the Shed and Follow Fred" is a useful ditty for remembering how to use a Boy Scout Orienteering Compass.

#### To follow a given bearing:

First, hold the compass with the base plate flat, at navel level, with the "Read Bearing Here" arrow (this is "Fred") facing forward.

Second, rotate the movable bearing ring, such that desired bearing is at the "Read Bearing Here" arrow.

Third, "Red" is the North end of the compass arrow, while "The Shed" is the red arrow on the base plate of the bearing ring, that looks like a little "Shed".

With the "Read Bearing Here" arrow (Fred) still pointing forward from your navel, take baby steps as you turn your body, until the North end of the compass arrow (Red) is lined up with the "Shed". Now walk in the direction of "Fred".

#### To find a desired bearing:

First, hold the compass with the base plate flat, at navel level, with the "Read Bearing Here" arrow (this is "Fred") facing forward, while you face the landmark you would like to take the bearing of.

Second, rotate the bearing ring until "Red is in the Shed".

Third, read off your bearing from the bearing ring at the point, "Read Bearing Here".

# Webelos Klondike Trek Outdoorsman Station

## Operating Instructions

### Station Specific Instructions (Outdoorsman):

1. Patrol checks-in. Record arrival time and start time (different only in case of station backup).
2. Station host directs Scouts to a location where they can put up their shelter.
3. Patrol assembles a basic shelter from a 6' x 8' tarp or blanket. Patrol members and/or adult leaders serve as "tree and stake" points, to which ropes will be tied.
4. A center line using 15' length of rope is fixed between 2 "trees" (or chests of patrol members if adequate trees are not available) using 2 half hitches knot at one end and a taut line hitch at the other. Pull rope taut. Drape tarp or blanket over rope, using 8' dimension, so 4' hangs on either side of rope. **(5 points)**
5. Each corner is fixed to a "stake" (or ankle of a patrol member if stakes are not available) using a taut line hitch knot. For corner attachment, tie 2 half hitches and use either the grommet of the tarp, or a small rock (or tennis ball) tucked into the corner of the blanket or tarp (if it doesn't have grommets). **(10 points)**
6. Station host checks for proper assembly.
7. Fold the tarp/blanket, and coil and wind the ropes for proper storage. **(5 points)**
8. Scout Spirit/Patrol Yell **(5 points)**
9. Add up the points. This is the Patrol Score.
10. Place the Patrol Score **(max 25 points)** on the sheet.
