

Mad Science Has a Program For You!

Special Event Shows:

Entertainment for Blue & Gold Dinners & Monthly Meetings
Halloween Parties, Holiday Parties (Winter theme).

Science Nights & Badge Workshops:

Science Stations (larger groups)

Academic Pin & Belt Loop Workshops

Activities include:

Bernouli's Principle

Pascal's Law

Newton's 1st Law of Motion

Air Pressure & Water Pressure

Center of Gravity

Simple Machines

Our 60 minute workshop includes a fun take-home
experiment!

Mad Science Special Event Shows

Fire and Ice

Get ready for some sizzlin' excitement! Join us for scientific fun with fire and ice! Explore some H O T chemical reactions, and states of matter. Then, cool off with spectacular demonstrations involving dry ice! Check out the "Big Burp" and our famous Mad Science "Mad Showers", as we explore the science behind this amazing frozen gas. Learning is so *COOL*!

Up, Up, and Away

You think homework is pressure? Just wait until you learn how the weight of the earth's atmosphere pushes down on you with the force of two elephants. Explore how Bernoulli's principle creates enough lift to make a jumbo jet fly. Be amazed as our vortex generator creates giant smoke rings. Want even more pressure? Take a ride on our amazing Mad Science Hovercraft! The program will leave you *FLYING HIGH*!

Spin, Pop, Boom

Are you ready for some fun science? You will witness amazing feats of chemistry as we explore all sorts of spectacular reactions. Marvel as our demonstrations release a "genie from a bottle", and spew massive columns of foam with the use of our catalysts! Science is such a *BLAST*!

The Evil Witch of Eggsylvania (Halloween Show)

Join Count Eggbert and the Mad Scientist as we all join forces to defeat the Evil Witch of Eggsylvania!

Frosty Meets the Mad Scientist

Our winter show features the adventures of our Mad Scientist as he/she helps Frosty get to the North Pole before he melts!
